

TRY-IT: AMAZON ECHO

The Amazon Echo series empowers users with disabilities to maintain (and even thrive) in many aspects of their daily lives. Alexa, the devices' built-in virtual-assistant, can help you make phone calls, remind you to take medications, answer questions, search the internet, set alarms, read books, play music! Alexa can even communicate with Zigbee smart bulbs, smart plugs, and motion sensors to turn them on and off! The following are examples of Amazon Echo products you can get for your home:

Amazon Echo Plus - \$149.99

Purchase at <https://amzn.to/2EFozzJ>

The Amazon Echo Plus provides crisp, Dolby play 360° audio that will recognize your voice, even when it's playing music! This product is ideal for those who want Alexa's voice-controlled capabilities without necessarily needing a screen.

Amazon Echo Spot - \$129.99

Purchase at <https://amzn.to/2SfLSDc>

With its compact screen size measuring in at 2.5 inches, the Amazon Echo Spot can be placed anywhere in the house! Its default size makes it an ideal bedside or office desk companion. When it isn't showing you other information, the Amazon Echo Spot's equipped screen shows a clock as its default view.

Amazon Echo Show - \$229.99

Purchase at <https://amzn.to/20KF56v>

In addition to boasting the features of its fellow devices, the Amazon Echo Show's HD 10-inch screen makes it ideal for watching videos, reading recipes, video chatting with other Amazon Echo Show owners, checking the feed from your security cameras, and much more!

TRY IT: OTHER TECHNOLOGY AIDES

GrandPad - \$200 + \$40/month service fee

Purchase at <https://bit.ly/2NXKBNP>

GrandPad is a tablet that empowers seniors to connect with their loved ones through video chat, phone calls, and emails! Users can play games, take pictures, listen to music, and do other things on a private, secured family network. The GrandPad comes with a stylus and a hassle-free charging base.
