DYNAMITE DINOS

Today's theme is all about dinosaurs! Dinosaurs walked the planet millions of years ago. Dinosaurs were humongous! They were much bigger than lots of animals that are alive today. Some dinosaurs were 40 feet high! There were lots of different types of dinosaurs too. Some were big and others were small. Some had scales like a lizard and others had feathers like a bird. Some dinosaurs walked, ran, and crawled, and other dinosaurs swam deep in the ocean. There were so many dinosaurs that scientists are still finding dinosaur fossils today!

Today's fun includes an eye spy, an activity to create your own dinosaur, and a matching game!

Discover the Dinos!

Many dinosaurs lived and traveled together in groups. These groups are called "packs." Search through the packs of dinosaurs. Try to find all of the dinosaurs on the list on the next page. Keep track of the number of dinosaurs you spot!

Create Your Own Dino!

Dinosaurs roamed the planet for millions of years. There were lots of different types of dinosaurs that lived during this time. Each type of dinosaur looked different from each other. Use the questions below to create your own dinosaur. When you answer all of the questions draw out your dinosaur!

What color is your dino?

What does it eat?

How big is it?

Where does it live?

What shape is it?

Does it live in groups or by itself?

Does it have scales or feathers?

How long is it's tail?

Use your answers to those questions to draw your imaginary dino!

Prehistoric Matching

Test your knowledge by playing this matching game! Cut out all of the dinosaurs and their names, and mix them around face down. Try to match the dinosaur to its name! If you forget the name of a dinosaur look at the answer sheet on the next page!

Triceratops

Brontosaurus

Pterodactyl

Archaeopteryx

Note: Print this page out single-sided.

Mosasaurus

Ankylosaurus

Stegosaurus

Tyrannosaurus

Iguanodon

Spinosaurus

Note: Print this page
out single-sided.

Rainforest Matching Answers

Triceratops

Brontosaurus

Pterodactyl

Archaeopteryx

Mosasaurus

Ankylosaurus

Stegosaurus

Tyrannosaurus

Iguanodon

Spinosaurus

Boredom Busters Bitez is an extension of our previous publication, Boredom Busters. Instead of one large publication, we will release three different Boredom Buster activities. Each issue is a different theme!
